

Project Design Phase-II Data Flow Diagram & User Stories

Date	03 NOV 2023
Team ID	NM2023TMID10680
Project Name	Building A Website Using Canva

Data Flow Diagrams:

A Data Flow Diagram (DFD) is a traditional visual representation of the information flows within a system. A neat and clear DFD can depict the right amount of the system requirement graphically. It shows how data enters and leaves the system, what changes the information, and where data is stored.

Example: [\(Simplified\)](#)

User Stories

Use the below template to list all the user stories for the product.

User Type	Functional Requirement (Epic)	User Story Number	User Story / Task	Acceptance criteria	Priority	Team Member
Customer	Registration	USN-1	As a user, I visit the website, there should be a clearly visible and labeled "Log In" button or link in the header or another prominent location on the homepage.	I can access my account / dashboard	High	Harish
		USN-2	As a user I should be able to click a "Log In" or "Sign In" button to submit the form.	I can receive confirmation email & click confirm	High	kamalesh
		USN-3	As a user I enter incorrect credentials, I should receive a clear error message indicating that the username/email or password is incorrect.	I can register & access the dashboard with Facebook Login	High	Manoj
		USN-4	As a user, I forget my password, there should be a "Forgot Password" link that takes me to a password recovery/reset page.		Medium	karanan
	Login	USN-5	As a user, login functionality should support session management, ensuring that I remain logged in for a reasonable amount of time without needing to log in again.		Medium	Harish
